

Data Sheet

BIZERBA

iL Professional 20F/HY

The stand-alone load receptor impresses as single, dual or multi-interval scale with a high weighing range resolution and a low design.

More information
High performance
with a wide range of
solutions and options.

Product description

For weighing ranges up to 6 kg, 12 kg and 15 kg. The selection of high quality materials for the iL Professional 20F/HY such as a weighing platform made of stainless steel 1.4301 or a corrosion-free load platter ensure optimal wear and tear resistance particularly in case of extreme surrounding conditions. In combination with Bizerba weighing terminals the iL Professional can perform manifold tasks.

Highlights

- Verifiable weighing ranges for single, dual and triple interval scales
- Stainless steel solution in robust design
- Load platter w/o patterns provides best protection of functional elements
- Optimal long-term accuracy
- Wear-resistant even in tough weighing operations
- Optimal leveling via spirit level on main frame

iL Professional 20F/HY

Options

- Increased corrosion protection (load platter also available in acid-resistant stainless steel)
- Non-driven roller conveyor
- Intrinsically safe version suitable for zones 1/21 and 2/22

My Bizerba

We offer you solutions from a single source which can be customized and allow you to respond to any change in a flexible manner. Benefit from costs which can be planned and efficient processes. We are happy to advise you.
