

DIGITAL LABELS CONTROL

—
**Refreshingly
reliable**

**Vision inspection
system LabelSecure**

BIZERBA

- Teach in the criteria quickly & easily
- AI-based, synchronous labels control top/bottom
- Eject faulty packages in real time

SOLUTION

Refreshingly suitable

In-line solution

LabelSecure T, featuring the smallest footprint in its class. Can be easily integrated, e.g. in the Bizerba GLM-I price labeling system.

Manual sample check

LabelSecure S

Stand-alone / end-of-line solution

LabelSecure, flexibly operational: as a stand-alone solution or can be combined with upstream machines & systems.

HANDLING

Refreshingly easy

With the LabelSecure user interface, you intuitively have everything under control. Experience for yourself just how easily the vision inspection system can be operated. Follow the current status of the label control on the dashboard. Correct any errors directly with just a few tips. Efficient handling for the optimum product quality.

Highlights

Digital wizard for creating & setting optical label controls

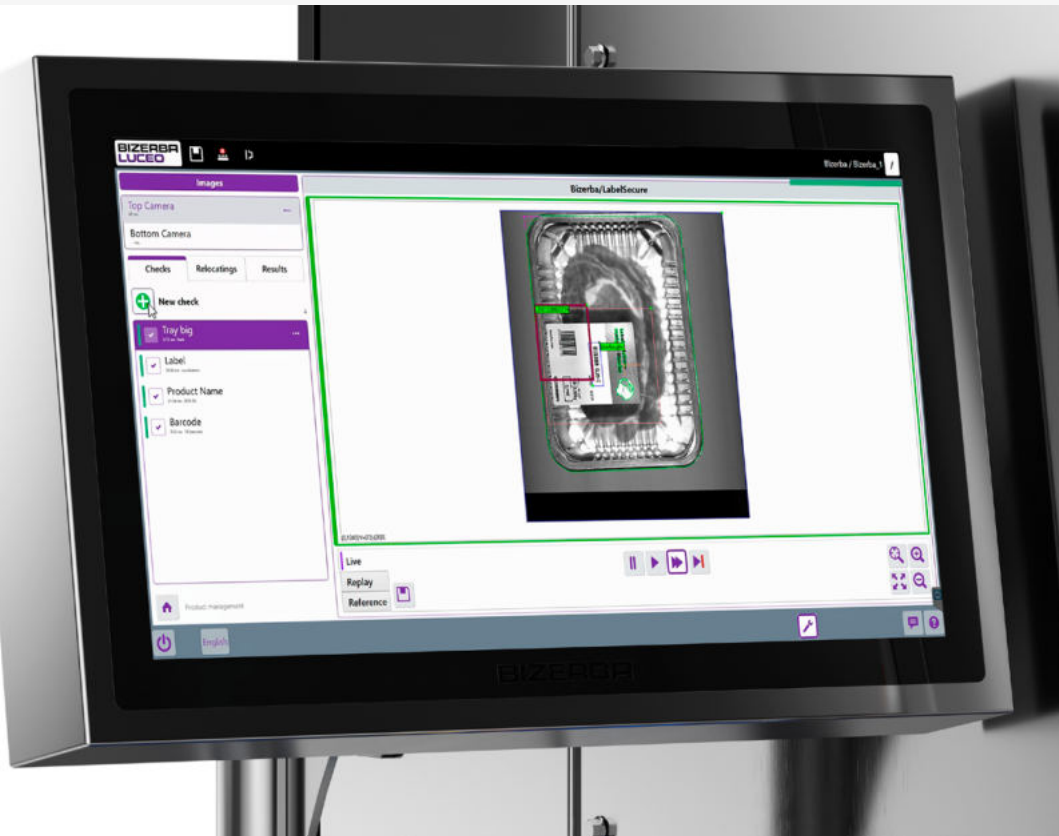

Intuitive user guidance for optimized operating procedures

Fast & easy criteria selection, such as price & weight details, MHD, labels 1D & 2D codes, allergens, etc.

AI-based reading and identifying texts, data, etc.

Fast set-up with automatic localization of label information & automatic, user-guided product changes

Visualized dashboard for real-time monitoring

SOFTWARE

**BRAIN2**

Refreshingly transparent

Network your workflows with the intelligent LabelSecure L & and the [BRAIN2 industrial software](#). Benefit from transparent work & data flows. Ideal for optimizing your overall equipment effectiveness/ OEE, for example & for responding flexibly to new requirements.

Acquire & analyze process data

Determine data-based unit values, statistics, and the effectiveness of your production. Using flexible reports, analyze giveaways, scrap and other key values. Document & archive production, including images, automatically. Ideal for seamless quality management.

BRAIN2 apps: BRAIN2 Capture, BRAIN2 OEE

Secure data & device access

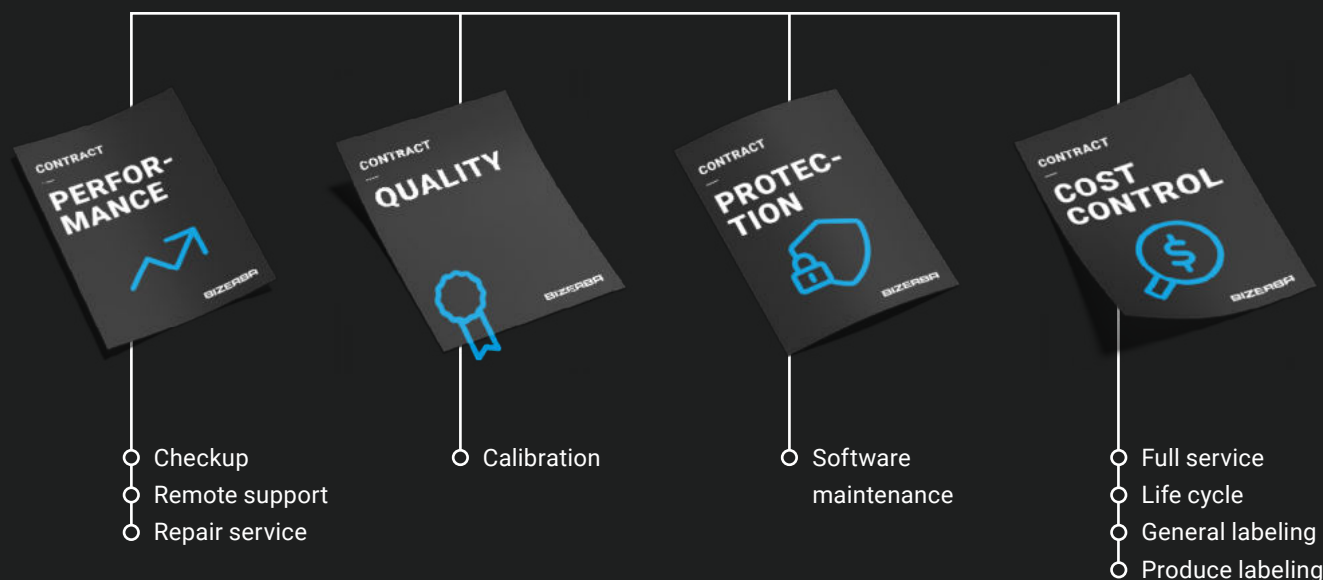

Rely on maximum security. Create backups directly on LabelSecure that are stored centrally in the BRAIN2 database. Ideal in order to be able to restore the system without any time loss. Maintain control over users.

BRAIN2 apps: BRAIN2 Safety_Service, Function: Audit trail

CONTRACTS

Everything runs smoother

With a Bizerba [Service Contract](#).
