with a wide range of
solutions and options.

Product description

For a clean and protecting result without abrasives: Benefit from powerful but caring cleaning at a minimum of time and effort. In comparison to non-adhesive products, the effect of the Bizerba foam cleaner is more intense and more thorough. And you also avoid possible damage that could be incurred from using abrasives. The foam cleaner removes stubborn dirt without leaving any residues. In addition, its antistatic properties prevent the surface from getting dirty again quickly. Regularly applied, you protect your investment and reduce wear simply through cleaning. Yet another highlight: A hygienically clean appearance in the production and sales area raises your image and increases the trust and loyalty of your customers. The Bizerba product is certified with the NSF Hygiene Standard C1 Nonfood Compounds.

Available container size 400 ml

Product features

- Intensive cleaning of machine housings and hard surfaces such as plastic, glass or metal with long-adhering, wet foam
- Suitable for retail scales, price labeling systems, meat and bone saws, mincers, tenderizers/strip cutters, label printers, logistics systems, automatic checkweighers, inspection systems, compact and precision scales, weighing terminals, load receptors, packaging systems
- Simple, caring and residue-less dissolving of stubborn dirt, e.g. grease, oil or lubricants, with surfactants
- Effective and economical in use: Saves time and chemicals thanks to high percentage of air and foaming the active substances
- Anti-static effect prevents re-soiling
- Powerful cleaning without using abrasive cleaners
- Foam residues can be seen easily on surfaces
- High hygiene standard: NSF certification in category H1 Nonfood Compounds
- Halal certified
- Kosher certified
