BIZERBA

The robust, stainless steel thermal printer GLP 58 impresses with quick, safe handling and multi-functionality - whether for Windows® printers or in a system network.

More information
High performance
with a wide range of
solutions and options.

Product description

The GLP 58 is suitable for manifold areas of application. In combination with different Bizerba labeling systems, checkweighers and weighing terminals it offers a wide variety of potential applications. Both in manual labeling and statistical work. Furthermore, it can be used as a label and list printer. Up to three barcodes can be printed on the GLP 58 label printer at the ST. Not only standardized printing images can be used but also custom label layouts. Labels created with Windows® applications and via BRAIN2 Label_Designer can be printed via the Windows® printer driver. There is a direct PC link via Epson compatible control character.

GLP 58

Highlights

- Network-capable, can be controlled via Internet
- Direct connection of PLC and scanner possible
- Replacing label and thermal transfer film rolls is fast and easy and does not incur costly downtimes
- Tool-free adjustment and maintenance of the printing unit for reduced costs and superior printing quality
- Processing of glossy labels, also in direct thermal printing quality, for new, attractive and customer-friendly labeling options

My Bizerba

We offer you solutions from a single source which can be customized and allow you to respond to any change in a flexible manner. Benefit from costs which can be planned and efficient processes. We are happy to advise you.
