

BRAIN2 Prepack_Compliance

BRAIN2 Prepack_Compliance supports you when recording, evaluating and archiving statistical data records of Bizerba weigh price labelers and dynamic checkweighers. Depending on the configuration of the device, statistics data sets are used for fill level control (FPV Europe), USDA (USA) or weight class identification.

More information
High performance
with a wide range of
solutions and options.

Product description

With a complete series of standard functions, BRAIN2 Prepack_Compliance offers many options to collect, evaluate and exchange data of statistics data sets. The statistical data records generated in Bizerba's dynamic checkweighers and weigh price labelers are centrally stored in the BRAIN2 database. By entering an article number, a time period or a batch number the searched data set can be quickly displayed in the BRAIN2 user interface and be printed.

Functional features

- Archiving of statistics data sets such as FPV Europe, USDA (USA) or weight classification
 - Quick evaluation by entering a batch number or a time period
 - Collected data can be exported as a CSV file (Excel)
 - Web service as interface for programmers
 - Reporting as PDF
-

Integration in business processes

Reports can be automatically saved as a file or printed for evaluation or archiving. Furthermore, via the BRAIN2 web service, BRAIN2 data sets can be retrieved and further processed by higher ranking systems after successful user authentication.

BRAIN2 - optimized processes

- The dynamic design of BRAIN2 and the freely selectable applications allow you to clearly arrange and individually design the user interface. As a result you benefit from a more efficient and easier operation
 - With the available Bizerba modules you dimension and adapt BRAIN2 Framework to fit your production. Misinvestments due to partially unused software packages are avoided.
 - To save time for repetitive tasks, you can automate tasks with BRAIN2 such as reporting on the printer, backup of the BRAIN2 database and reporting via e-mail.
