The result of this effective pump spray is visible: a hygienic overall appearance of your environment.***

**More information**  
High performance with a wide range of solutions and options.

### Product description

The Bizerba stainless steel cleaner convinces in its practical application and results. It's great in both the production and sales areas: Certified with the NSF Hygiene Standard C1 Nonfood Compounds, the special cleaner can be used without any concern for all stainless steel surfaces.

It leaves behind no scratches and with only a minimum of effort you will achieve the consistent, gleaming cleanliness that increases the trust placed in you by your customers. The stainless steel cleaner removes dirt without leaving behind any residue or greasiness. In addition, its antistatic properties prevent the surface from getting dirty again quickly and are effective against corrosion. Benefit from the effective and value-preserving cleaning of your Bizerba device.

Available in two different container sizes
